

Sublime Sounds – Rhythm Master

Game Overview

Sublime Sounds – Rhythm Master is a browser-based rhythm game that merges traditional rhythm gameplay with blockchain-powered music ownership. Players compete using music NFTs as playable tracks.

Gameplay

The game features five lanes controlled by keyboard or mouse input. Notes are synchronized directly to the audio playback for precise timing. Players build combos and multipliers for higher scores.

Visual Identity

High-impact visual feedback includes lane pulsing, accuracy-scaled sparks, judgement text, and screen shake on perfect hits.

Blockchain Integration

Wallet login is handled via WAX. Music NFTs are loaded using AtomicAssets. An SSN token entry fee enables seasonal competition access.

Competitive Structure

Leaderboards are tracked per track and per season. Only the best score per wallet is retained. Admin controls allow seasonal resets for tournaments.

Quick Facts

Genre: Rhythm / Music / Competitive

Platform: Web Browser

Blockchain: WAX

Status: Live

Tagline

Own the music. Master the rhythm. Compete for the top.
