

# Rhythm Master – Season Rules & Prizes

Welcome to Rhythm Master competitive seasons! This document explains how seasons work, how scores are calculated, and what prizes you can win.

## Season Structure

- Each season lasts **6 weeks**
- Followed by a **2 week break** (off-season)
- Each season features **4 NFT Template IDs**
- Players must own and play the listed NFTs to compete

## Scoring & Rankings

- Scores are recorded per NFT Template ID
- Only your **highest score per template** counts
- Leaderboards reset at the start of each season
- Ties are resolved by earliest score submission

## Overall Champion Calculation

To determine the overall season champion, scores are normalized across templates.

Template	Player Score	Template Max	Normalized Score
A	85,000	100,000	0.85
B	92,000	100,000	0.92
C	78,000	100,000	0.78
D	90,000	100,000	0.90
Total			<b>3.45</b>

The player with the highest total normalized score across all 4 templates wins the **Season Champion Prize**.

# **Season Prizes**
